OBSTETRICS & GYNAECOLOGY • PAEDIATRICS • MATERNITY • COSMETICS

Message from the Hon. Minister of Health, Indigenous Medical Services and Women & Child Affairs, Social Security

According to the World Health Organization, Sri Lanka's health indicators have shown a steady improvement over the recent decades, particularly in maternal and infant mortality, and life expectancy. Among the countries of South Asia, Sri Lanka is perceived as a leader and an impressive achiever in the social health indicators. On indices related to literacy, sanitation and health, Sri Lanka has consistently exhibited excellent rankings.

Our goal is to ensure that the public receives timely, accurate and important information with regard to health issues and to keep them updated on the latest technological innovations pertaining to health and wellbeing, thus helping to promote a healthy society.

"Medicare 2020 - National Healthcare Exhibition" would undoubtedly bring enormous benefits to the people, by which they would also secure useful information and guidance pertaining not only to their personal health but the health and wellbeing of the community at large.

I take this opportunity to wish Medicare 2020 all the success and would like to invite the public and healthcare industry stakeholders to visit and actively participate in Medicare 2020.

Hon. (Mrs.) Pavithra Wanniarachchi
Minister of Health, Indigenous Medical Services and
Women & Child Affairs, Social Security

Message from the Secretary,
Minister of Health, Indigenous Medical Services and
Women & Child Affairs, Social Security

As a key stakeholder in the Healthcare sector, I take much pleasure in issuing this message on National Healthcare Exhibition 2020, which is to be held for the 11th consecutive year.

In the process to achieve set development goals in the Health Sector, the country needs to make people aware of new medical technologies available for them. Medicare 2020 National Healthcare Exhibition will be an ideal platform to make such awareness among the general public and to introduce latest advances.

In this regard, I wish to offer my heartiest congratulations to the Organizers of the National Healthcare Exhibition that has made all the above possible. I also would like to extend my warmest greetings and sincere thanks to all those, whose efforts have brought this event a reality.

J.M. Bhadrane Jayawardhena
Secretary
Ministry of Health and indigenous Medical Services

Message from Minister of Justice,
Human Rights and Legal Reforms

Good health has an infinite value, yet it seems to be a component that people value the least. "Medicare 2020" - National Healthcare Exhibition" is an endeavor to advocate healthier lifestyles and to introduce innovative medical care to Sri Lankans.

The main benefit of this exhibition is the provision of information to the general public pertaining to illness and then necessary advice under one roof. Seminars are also conducted to impart ideas and knowledge to people. This is also a good platform for the media to report on key health issues and educate the public accordingly.

I take this opportunity to wish Medicare 2020 success and would like to invite general public and healthcare industry stakeholders to visit Medicare.

Nimal Siripala de Silva,
Minister of Justice, Human Rights and Legal Reforms

Message from the Director,
General Health Services, Ministry of Health

Sri Lanka is currently experiencing a rapid growth in the healthcare industry. As the country's economy expands, the demand for high quality medical services has also increased.

However, there are visible gaps and disparities in the health conditions with regard to non-communicable diseases (NCDs) and elderly care. Empirical data shows that the country needs sufficient investment for the healthcare sector especially given the emerging burden due to NCDs and ageing population.

Taking good health for granted is a common factor and many people tend to ignore telltale signs of deteriorating health as they progress daily out of their busy schedules and lifestyles.

In a bid to advocate healthier lifestyles and introduce innovative medical care services, MEDICARE will once again bring the healthcare and medical professionals under one roof to interact with the industry stakeholders and the general public.

I wish Medicare 2020 much success!!

Dr. Anil Jasinghe
Director General of Health Services
Ministry of Health

Message from the Chairman - Medicare 2020

Good health is the most important gift of life. The Sri Lankan Government believes that healthy people are the most important factor which can contribute towards developing a prosperous nation.

Sri Lanka has maintained good Health at low cost. Health sector alone would change the destiny of Sri Lanka.

Medicare 2020 National Healthcare Exhibition will provide an exceptional opportunity for the general public to meet service providers such as hospitals, nursing homes, specialized medical care units, government hospitals and specialized healthcare units (STD, cancer, NCD, blood bank, etc.), suppliers of prosthetics etc. to get timely, accurate and important information on disease diagnosis, prevention and cure.

Therefore, I take this opportunity to invite all stakeholders to visit the Medicare 2020 National Healthcare Exhibition in order to strengthen the Sri Lankan Healthcare Industry.

Dr. Amal Harsh De Silva
Deputy Director General Medical Services, Ministry of Health
Chairman - Medicare 2020
